Oklahoma City, OK

Gardening in the Shade

2010

PRESIDENT

Laura Morris

(405) 721-0745

lostngarden@cox.net

*We are a nonprofit organization designed to encourage the study, cultivation, hybridization and improvement of the genus hosta. Meetings are held on the fourth Thursday of the month at the Will Rogers Garden Center from 7p.m. to 9. We meet from March through September. In October we will have a progressive garden dinner at member's homes. In April we have a sale to each other to raise money for the club and allow members to acquire hostas and other plants at reasonable prices. In addition to our stated mission-- we are simply a group of men and women who share a love of gardens-- and in particular hosta's. Hosta's are known as the " Friendship plant" and we hope to bind people together in their shared joys-- providing opportunities to learn and relax in one of the truly great blessings the earth offers----
Shady Paths along the way!!!*

2010 SCHEDULE
