

IV. BENEDICT GARDEN PERFORMANCE AWARDS PLAN

IV-A. Purpose of the Benedict Garden Performance Awards Plan

The Benedict Garden Performance Awards Plan, which was established in 2003 by The American Hosta Society, is designed to recognize hostas that demonstrate superior garden performance ó garden worthy plants that have passed the test of time, that exhibit cultural superiority, and that can be appreciated in the landscape both from a distance and under close observation. These awards are named in honor of the late Dr. Ralph H. (Herb) Benedict, one of the great pioneers of improving the genus *Hosta* through hybridization, a long time promoter of hostas as the premier shade perennial and a strong supporter of The American Hosta Society.

The system provides for three levels of awards and winners of the awards are determined by the vote of AHS Garden Judges. The awards are presented annually at the National Convention to the originators of the winning cultivars. **The awards are limited to registered cultivars only.** To be considered for a Benedict Garden Performance Award, a cultivar must have been registered for at least three years.

IV-B. Benedict Garden Performance Awards

The American Hosta Society sponsors the following three tiers of Benedict Garden Performance Awards:

The **Benedict Garden Performance Honorable Mention Award** is a certificate designed and presented by the American Hosta Society.

The **Benedict Garden Performance Award of Merit** is a certificate designed and presented by the American Hosta Society.

The **Benedict Garden Performance Medal** is a certificate and medal, designed and presented by the American Hosta Society.

IV-C. The Awards System

While the system may at first seem complicated, it is really quite simple. When the originator/hybridizer or registrant of a cultivar determines that his or her cultivar has sufficient distribution across the regions of AHS so that a large number of judges will be able to see it actually performing in gardens, he or she may then decide to nominate the hosta cultivar for consideration for Garden Performance Awards. Please note that the cultivar must have been registered for at least three years in order to be considered for these awards.

The originator/hybridizer or registrant may nominate as many as seven cultivars each year and nominations will be due in to the Garden Performance Chair by February 15 of each year. The Executive Committee of AHS may also nominate seven cultivars each year at its annual Fall Executive Committee meeting. The cultivars nominated each year then become eligible to receive the Garden Performance Awards as provided by the rules of the system.

The **Benedict Garden Performance Honorable Mention Award (HM)** is the first award that a newly nominated cultivar becomes eligible to receive. Once nominated, a cultivar goes on the Benedict Garden Performance Honorable Mention ballot and remains eligible to receive this award for five years. If during this five-year period, it does not win an HM Award, it is removed from the ballot. In order to win, it must receive a minimum of 10 votes from judges from at least two regions. A maximum of 15 HM awards may be awarded each year to the cultivars receiving the most votes provided the total number of cultivars in this category is 60 or greater for the specified year. When the total number of HM nominations is between 50-59, a maximum of 10 cultivars may advance; when total nominations are between 35-49, a maximum of 7 cultivars may advance; and, below 35 HM nominations, a total of 5 may advance to the next level. In case of a tie for the final spot, all tied cultivars will receive the award. If a cultivar wins an HM award, it then becomes eligible for the next tier of awards, the Benedict Garden Performance Award of Merit (AM).

All HM award winners are automatically added to the **Benedict Garden Performance Award of Merit** ballot and remain eligible to receive this award for five years. In order to receive this award, the cultivar must receive a minimum of 10 votes from judges in at least three of the AHS regions. A maximum of 10 AM awards may be awarded each year to the cultivars receiving the most votes. In case of a tie for the final spot, all tied cultivars will receive the award.

The top garden performance award is the **Benedict Garden Performance Medal**. For a hosta to receive this prestigious award, it must truly be an outstanding garden performer across the country as evidenced by it having already received both the HM and the AM awards. Once a cultivar has received an AM award, it is added to the ballot for the Benedict Garden Performance Medal and remains eligible for the medal for five years. One hosta will receive the Benedict Medal each year. In case of a tie for the final spot, all tied cultivars will receive the award.

IV-D. Procedures for Nomination of Cultivars

The following rules and procedures apply to nominations for these awards:

- 1. The hosta cultivar must have been registered for at least three years prior to the year of nomination.** Under this rule, nominations made by February 15, 2005 for inclusion on the 2005 ballot must be for cultivars registered in 2002 or earlier. A hosta cultivar is to be considered registered on the date of approval of the registration by the Registrar.
- 2. Only the originator/hybridizer or registrant (as indicated in the registration data), or The Executive Committee may nominate a cultivar.** The Executive Committee will only nominate cultivars whose originator and registrant are deceased.
- 3. Each originator/hybridizer or registrant may nominate a maximum of seven cultivars each year.**
- 4. The originator or registrant must submit nominations in writing to the Garden Performance Chair by no later than February 15 of each year (date of postmark) for inclusion on that year's ballot.** The Benedict Garden Performance Awards Nomination Form in this section of the Handbook may be reproduced and used to list nominations or the originator may provide the information, complete and legible, in letter form. The nomination should list the name of the cultivar and the year of registration. The Garden Performance Chair will acknowledge all nominations within three weeks of receipt. The Chair should be contacted immediately for any nominations not acknowledged within three weeks.

The Executive Committee reserves the right, in the case of questionable originator data, to direct that the award recognizing the plant be announced without presentation to the originator of record, and that in such cases no publicity regarding the award advertise the questionable originator.

The Garden Performance Chair will send a reminder to living originator, hybridizer or registrants in January each year reminding them of the nomination process and include a nomination form.

- 5. The Executive Committee will make nominations at its fall Executive Committee meeting for inclusion on the next year's ballot.** The Executive Committee may nominate a maximum of seven cultivars each year. No more than two from any single originator. The Vice President of Judging and Exhibitions of AHS will then provide the list of nominations in writing to the Garden Performance Chair no later than two weeks following the conclusion of The Executive Committee meeting. Further the Executive committee reserves the right to nominate cultivars that are deemed to be registered without originator data.

6. A hosta cultivar can be nominated only once for Benedict Garden Performance awards.

In determining if and when to place a hosta cultivar in nomination for Benedict Garden Performance awards, the originator and The Executive Committee should take into account the distribution of the hosta, how widespread it is grown, as well as the quality of the cultivar. Distribution is very important since garden judges will be located throughout the country and can only vote for hostas they have seen growing in their own regions and at National Convention gardens. A hosta that is not widely grown is not likely to receive enough votes for an award regardless of its quality. This makes timing of the nomination critical and cultivars should not be nominated before they are well distributed. Remember that a cultivar can only be nominated once for Garden Performance Awards.

IV-E. Garden Judges' Requirements and Procedures

IV-E-1. Garden Judge Qualifications

In order to become an AHS Garden Judge, a person must have the following qualifications:

1. Must be a member of The American Hosta Society for a minimum of three years.
2. Must have an extensive demonstrated knowledge of hostas.
3. Must have a demonstrated ability to visit a representative cross-section of gardens in his or her Region.

To apply to become a garden judge, complete the Garden Judge Application Form and send it to the Garden Performance Chair. Appointments are for five year terms. Garden judges may serve unlimited multiple terms provided they meet the requirements stated above and reapply at the end of each term. The Garden Performance Chair will be the final authority on all appointments for AHS Garden Judge.

IV-E-2. Limitation of Number of Garden Judges per Region

The number of garden judges is limited by region. No more than 15% of any Region's members may serve as garden judges at any given time. It is desirable to maintain the maximum level of garden judges in each region to insure that the vote reflects a representative sample of cultivar performance across the country for hostas winning Benedict Garden Performance awards.

IV-E-3. Balloting Procedures

The Garden Performance Chair prepares ballots for the Benedict Garden Performance Awards in accordance with the requirements set forth in the Benedict Garden Performance Awards System and distributes the ballots to the garden judges by April 15 of each year.

Garden judges will complete the ballot, using the selection criteria and Point Scales for Judging that are outlined in Section IV-G of this Handbook to make selections for the various awards. The ballot must be returned to the Garden Performance Chair by October 15.

The Garden Performance Chair will then compile the results and provide them to the Vice President of Awards and Honors, the Vice President of Judging and Exhibitions, *The Hosta Journal* Editor and the AHS Website Coordinator by November 1.

Although it is an honor to vote for the Benedict Garden Performance Awards, it also generates a responsibility for garden judges to view gardens and to observe as many cultivars as possible in order to be able to make an informed decision about garden performance. Voting for the Benedict Garden Performance Awards reinforces the importance of garden viewing, a requirement for all judges. Votes should be based on observed performance within one's own region and/or at National Convention tour gardens. A garden judge may reflect on previous years' observed performance for consideration when voting, but must reinforce that perception with garden visits during the voting year.

Failure of a garden judge to vote in a timely manner without acceptable excuse will result in the person being removed as an accredited AHS Garden Judge. A judge so dismissed may reapply to be an AHS Garden Judge after a two year waiting period. Allowance for failure to vote due to illness or other extenuating circumstances during the year will be at the discretion of the Garden Performance Chair.

IV-F. Presentation of Awards and Publicity

The Vice President of Awards and Honors will secure and present the Benedict Garden Performance Awards at the American Hosta Society National Convention each year.

Award winners will be published in *The Hosta Journal* and on the AHS Website after presentation of the awards at the National Convention.

IV-G. Benedict Garden Performance Awards Point Scales for Judging

The Benedict Garden Performance Awards System establishes specific criteria and point scales to be used by garden judges as the basis for selecting cultivars to receive votes for Benedict Garden Performance Awards. The attributes to be considered and the weight each attribute should count are listed below:

- **Aesthetics – 25 points**
The attractiveness and general appeal of the cultivar, including its flowers, in the garden setting.
- **Distinctiveness – 25 points**
How unique the cultivar is. How it stands out among other hostas via size, coloration, patterns, form, etc.
- **Multiseasonal Interest – 20 points**
Seasonal longevity and staying power. How well the cultivar maintains its look throughout the growing season.
- **Vigor – 20 points**
Ease of cultivation and resistance to disease and pests. How well the cultivar grows and multiplies under normal conditions.
- **Environmental Tolerance – 10 points**
Resistance to environmental stresses such as wind, rain, heat, drought, early frosts, falling pine needles, etc.

IV-H. BENEDICT GARDEN PERFORMANCE AWARDS PLAN FORMS

IV-H-a

**AMERICAN HOSTA SOCIETY
GARDEN JUDGE APPLICATION FORM**

Prior to applying to become an American Hosta Society Garden Judge, the applicant should obtain a copy of the AHS Handbook and become familiar with the required qualifications.

Please provide required information below.

To become an AHS Garden Judge, a candidate must:

- Be a member of AHS in good standing for at least 3 consecutive calendar years and maintain active membership. **Requirement met?** _____
- Possess the current edition of the AHS Handbook. **Requirement met?** _____
- Have an extensive demonstrated knowledge of hostas and individual hosta cultivars. **Requirement met?** _____
- Have the desire and ability to visit a representative cross- section of gardens in his/her Region. **Indicate affirmative** _____

Number of Cultivars grown in own garden _____

Approximate number of Cultivars added to garden during last five years _____

List gardens visited in your own Region and at AHS National Conventions during the previous two years. Limit list to a maximum of 15 gardens.

<u>Year</u>	<u>Garden/Location</u>	<u>Year</u>	<u>Garden/Location</u>

**AMERICAN HOSTA SOCIETY
BENEDICT GARDEN PERFORMANCE AWARDS NOMINATION FORM**

To be eligible for nomination for Benedict Garden Performance Awards, hosta cultivars must meet the following criteria:

- The cultivar must demonstrate superior garden performance.
- The cultivar must be named and registered.
- The cultivar must have been registered for at least three years.
- The cultivar must not have been previously nominated.

Only the originator of the cultivar or the The Executive Committee of the American Hosta Society may nominate hosta cultivars for these awards. Each may nominate a maximum of seven cultivars each year.

To nominate hosta cultivars for Benedict Garden Performance awards, please complete this form, listing the cultivars you desire to nominate. Return this form by February 15 (date of postmark) to The American Hosta Society Garden Performance Chair. The Garden Performance Chair will acknowledge receipt of this nomination form within three weeks of receipt. Should acknowledgement not be received within three weeks, please contact the Garden Performance Chair immediately to insure nominations are properly recorded for this year's ballot.

(Please print all information legibly.)
